IMPACTION

Cal State Fullerton is a fully impacted campus. Impaction means there are more applicants for our campus than can be accommodated. To ensure capacity is not exceeded, more rigorous standards are applied to the transfer applicant pool. Impacted criteria may include local vs. out-of-local and/or major program impaction.

All transfer students must declare a major when submitting their application.

CSUF TRANSFER CENTER

CSUF works closely with California community college transfer centers to ensure that their students receive current information about our campus admissions process, academic programs, and student services. The Transfer Center provides on-campus peer advising and one-on-one peer mentoring for prospective students seeking to transfer from California community colleges or other institutions. Transfer Peer Advisors provide admissions information for prospective students, Cal State Apply assistance, CSUF website navigation, and information about degree programs and student services.
